校友——《從可藝到暨南 牙醫之路怎麼走

不知大家去到大學想修讀什麼專 業,我們可藝中學的房頴珊師姐就在內 地的暨南大學修讀牙醫,那就讓我們更 了解師姐為何修讀牙醫這門專業及如果 修讀牙醫的實用性和未來出路。

認識牙齒結構形狀

大四:全口義齒修復 實驗課備牙排牙

説到修讀牙醫的原因,房頴珊師姐表 示一開始的時候並沒有過多的考慮,在與 自己的同學和朋友交流過後,認為牙醫比 較適合自己,亦比較符合自己的想法,不 需要太多的社交能力,於是就選擇了這門 學科。相比起臨床醫學,牙醫的學習壓力 也沒那麼大,包括基礎醫學的知識、物理 化學、口腔基礎課程等。雖然也需要學一 些臨床醫學的知識,但是可以只專注學關 於牙齒的課程就夠了。此外牙醫的收入也 很高的,就業方面壓力也沒那麼大,就業 空間也多,所以比較吸引。

修讀牙醫有什麼痛苦之處? 最大的苦就是學醫是需要靠背書 及理解,它的內容十分之多。大 部分醫學生在期末複習周的時 候,幾乎沒自己的時間。如果你 有一些個人的興趣,想要參加-些社團,更是要你自己擠時間去 參與。學醫不僅內容多、科目亦 多,牙醫也不例外。但也不要害

怕。大學生活也是有很多樂趣的,以往有很多社團和活動,但 由於疫情,現在和以前的大學生活比較起來是單調了很多。

言歸正傳,如果修讀牙醫的話要 怎樣裝備自己呢?其實牙醫與細胞 學、分子生物學、生長發育及生理學 都是有掛鈎的,所以其實每一樣都略 知一二的話,那修讀牙醫對你來說已 經沒有什麼瓶頸的了。以上提及的科 目亦是需要在大學前打好基礎的,可 藝中學注力於學生將來出路,以及學 生是否能夠考入自己意向的大學,那

修讀牙醫有什麼優勢?因內地修讀牙醫是沒有香港競爭大的,

只要修讀牙醫上完大學,回港考醫師 資格證便可做牙醫了,雖然難,但也 算敲開了醫學的門檻了。

讀到這裏,若果對到內地修讀醫

科感興趣的話,這裡有一些建議。到內地升學分三種,一種是學校保送名額,只要面試就可以進了;一種是DSE分數入學,一般英文有2也能入學,如果是1或者U需要再多讀一年預科;第三種是兩校聯招考試。房頴珊師姐建議,如果是在香港讀書的話前兩種方式會比較推薦。至於畢業後的出路,如果想回香港,需要再用香港的要求學習並考全英的醫師資格證,可能還有額外的需求;如果在內地就業,就用內地的方法去考醫師資格證,並且需要規培,規培方面可能到時候會變,但總的來說需要規培的時長加上有醫師資格證,一線城市不太敢保證本科能找到好工作(高薪),但是二三線城市應該能找到好工作

的。但如果在內地發展,盡量還是 要考上研究生,專科研究生的話這 些都是包了的。

最後,房頴珊師姐忠告只要你

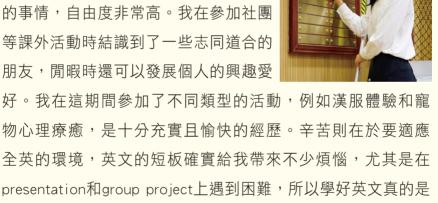

肯學,相信一定能成功,如學生亦想做牙醫,只要你用心讀, 考了證基本就能當牙醫了。師姐亦鼓勵各位學弟學妹們要加油,不要做讓自己後悔的選擇,向自己的夢想努力。

校友——大學新鮮人

疫情來襲,一切都難以掌握,難免影響香港中學文憑試考 生的心情,但多位校友抱持迎難而上、刻苦勤勞的積極態度迎 戰公開試。天道酬勤,多位校友最終奪得優異成績,校友王銘 婷修讀香港城市大學工商管理學十(會計)、校友馮偉洲修讀 香港城市大學電機工程學系工程學十、校友羅萏修讀香港恒生 大學藝術設計(榮譽)文學十。當中蒙梅杏校友出類拔萃,她 在中文科取得5*、數學科、生物科及化學科都是第4等、英文 及通識教育科第3等。她現於香港城市大學修讀生物醫學工程 學位課程。

蒙梅杏校友

大學生活是快樂的但也是辛苦的。 快樂在於你可以隨心所欲做任何想要做 的事情,白由度非常高。我在參加社團 等課外活動時結識到了一些志同道合的 朋友,閒暇時還可以發展個人的興趣愛

中學生涯我並不是孤軍作戰。除了同學的陪伴,亦多靠老 師不辭勞苦的提點與啟蒙。即使上了大學,我也不忘可藝中學 的栽培。能踏到今天這一步,絕非我一人之力能成就,感謝一 直深耕細作的老師,謝謝你們!

一個仟重道遠、需要長期奮鬥的過程。但好在有小組成員的幫

忙,我也能跟上進度,之後還是需要繼續與英文作鬥爭。

王銘婷校友

我覺得讀大學這一個月真的過得很快,以week為單位計算,每個week都有不同功課或者quizzes還有痛苦的group project,同中學是完全不一樣的。如果不住宿,時間就過的更快,每次從屯門去九龍塘就花費1.25h,發多了很多呆。平時在家也很空閒,空閒時就真空閒,因為我星期五就已經沒課所以有三天週末,放假放到不知時間;忙時就真的很忙,有一天是早上九點上課上到下午四點,一堂課長達三個小時。

不過也有開心的部分,參加各種迎新活動,玩通宵遊戲, 完全忘記dse時候的痛苦,分享一張入ocamp玩水game的照片。

大學的五光十色,固然令我雀躍。不過窩心的片段,始終留在可藝中學裏。雖然高中備戰生涯很艱辛,幸好一直有老師在旁,引領我們前進。這些溫暖的片段,也許很難再找到了。

馮偉洲校友

不知道大家有沒有幻想過一個禮拜有4日無需上學,或是 上堂時可隨時使用電話電腦。許多曾經不可能發生的事都會聚 集在大學,我想大家都很嚮往大學生活,那我就分享部分,讓 大家對大學生活有初步認識。 上到大學,最大的分別就是所有事情自己都可以去做抉擇。大學的堂與中學不同,每一堂至少兩小時以上,聽起來好悶?但是上堂的時間是由自己選擇的,對於中學每日滿堂,可能每天僅有兩堂課而且可以選擇自己最舒適的時間去上課,有些課程甚至會開至夜晚10點,所以無需擔心找不到自己心水。因此我為自己做的第一次抉擇就是排時間表,亦是大學才有的體驗。

其次就是,溫書亦都成為你的抉擇之一,在中學,老師會不停督促同學們溫習,操練題目,但總結大學的學習,僅憑自覺二字。有時一個大的課題教授只會在一堂課中講完,其中的知識當然不會穩固,唯有自己再抽時間去寫筆記,做題目來穩固。當然,作為大學生是可以自己做主,你亦可將知識拋諸腦後,不過大學還是以學業為主,作為師兄就不建議了。

係娛樂方面就無需擔心,不同學會,組織所舉辦的活動多 不勝數供你選擇參與,例如跳舞唱歌甚至我聽過有詠春學會。

大學的多元化可以銜接你 所有興趣,當中你更會認 識不同朋友,共同豐富大 學生活。

不過對於我的大學同學,即使大家將大學描述的有多美好,無一不想回到中學生活,老師不惜花大量放學時間替我們讓,亦個別跟我們談天經歷,這些片段仍然歷歷在目。而同學們正值此階

段,在邁向大學生活之餘,亦要珍惜正處於的中學時光。努力 爬升的那段路總是比站在群山之巔時更加熱血沸騰,所以同學 們,用盡自己每一分力,我等候在未來聆聽你們的大學故事。

羅蓞校友

其實本來完全沒指望 過自己的成績能夠入讀大 學,當我收到錄取通知, 直接高興的跳了起來。

香港恆生大學的生活非常充實有趣,各種活動比我想象的 豐富許多倍,絕對比中學更精彩。我亦有幸入住宿舍,社區氣 氛營造的很舒適,就像個真正的屋苑一樣。能與一群志同道合 的人朝夕相處,一起學習一起進步,是特別幸福的一件事。

其實,我面臨dse時也並沒有打算像其他同學一樣廢寢忘食拼盡全力,心態著實有些不上進。但見到老師們在備課上花盡心思,日夜操勞,只為讓同學更進一步,那比我們更緊張的模樣觸動了我。我不想辜負老師們的付出和期待,所以在積極的學習氣氛下,我也開始認真面對考試了。就只是這一念之差,才讓我踏進了大學的門檻,所以師弟師妹們,千萬不要輕易認為自己不行,說不定只差一點點努力,就能換來大學四年的美好。你會認識更多形形色色的人,拓闊眼界,為未來步入社會打下人際基礎,堅定自己的方向!

S5 product design & advertisement production

All S5 students participated in a cross-curriculum activity in collaboration with the Design and Technology department in early October. Students worked in teams and applied design principles such as the S.C.A.M.P.E.R. method to create an original product, for which they filmed a TV commercial introducing the product features. All teams were asked to give a presentation to explain their ideation process and the concepts behind their slogan and logo design.

After rounds of presentations, the winners of The Most Innovative Award, The Best TV Commercial Award, as well as The Best Presentation Award were elected directly by popular vote.

The Most Innovative Award: Golden Finger

5A (02) Chang Chun Him, Martin

5A (05) Fan Chun Kit, Jason

5A (10) Khan Mir Ibrahim

5A (12) Lai Ho Yin, Nick

5A (23) Tse Dik Kiu Dickie

Our product is called 'Golden Finger'. The first feature is that our product has a sensor. When you are cooking, it can detect the distance

between your finger and the knife. It avoids any dangers and prevents you from cutting yourself. The second feature is that our product is an electronic device. The knife can move and cut food automatically. With these features, they allow you to cook safely.

Regarding the logo design, we use white as our theme colour because it is calming, which resembles the feeling of safety when you use our product, it will keep your fingers away from any dangers. Besides, we choose a knife as the shape of our logo as it is an important tool in the kitchen, which appeals to customers who love cooking.

Our slogan is 'Your mom will love it.' With this short and simple slogan, it tells our customers the aim of our product is to care for

your family, especially your mother, who spends much time in the kitchen preparing meals for the entire family.

Reflections:

This activity is very interesting. It made us learn more English words. By working in groups, it enhanced our team spirit too. We also designed the product on our own. In the process, we learnt to be more creative. Many people cut their fingers while cooking, so that's why we designed 'Golden

Finger' to help food lovers. Also, in the presentation, we had to be brave too. We can speak boldly in front of our classmates and teachers. All in all, I think it is a great experience.

The Most Innovative Award: Almighty Grandpa

5C (07) Jia Yanren, Rayson

5C (18) Xiao Jiayi, Julie

5C (19) Yeung Sze Ki, April

5C (21) Zhang Lee Ki, Sara

We have chosen cream and brown as our theme colours because it can reflect a warm and reliable image to our target customers. Besides, we chose to use a rectangle as the shape of our logo because it represents that our product is reliable, safe, and trustworthy. And the Grandpa image on the logo is very kind and friendly, showing that Almighty Grandpa is more humane than any other Al programmes.

Our slogan is 'You can always count on Grandpa". With this short and

simple slogan, it tells our customer the feature of our product, that is whenever you encounter problems, you can ask grandpa for help. It

is a trustworthy app that you can always depend on, no matter in academic or emotional aspect.

The first feature of our product is that it knows everything, just like a walking encyclopaedia. Therefore, you can turn to Grandpa for help when you are in trouble and Grandpa usually has a good solution to your problems. The second feature is that our product comes with humanized interactive experience. For example, it

is able to chat with you and comfort you when you are unhappy. The final feature is that it is equipped with personalized designs. With such feature, it allows you to design your own Grandpa, for instance, you can change his hat, beard, and glasses.

Reflections:

We are glad and honoured that we received The Most Innovative Product Award. First of all, we want to thank Ms Leung, who has been teaching us for years. She gave us useful advice when

You can always count on Grandpa

we were preparing our advertisement video. Moreover, I would like to thank my team members. They put a lot of time and energy in this advertisement, and everyone not only does what they need to do, but also helps each other out. Lastly, we would like to thank the school for giving us this opportunity so that we can learn English in a different way.

The Best TV Commercial Award: Compound V

5B (09) Fan Sing Yu, Simon

5B (13) Lai Chi Tin, Aaron

5B (12) Lin Hon Pan, Hanson

5B (21) Lo Tim Faan, Kenny

'Compound V, be a superhero!". This simple slogan tells you the feature of our product, which is a super power drink.

The first feature of our product is that it uses the latest plants as ingredient, therefore, it makes you variant and grants you power for 12 hours. The second feature is that our product comes without any side effects. Our product is developed by professional and reliable personnel so it is safe for everyone to use it.

We have chosen the fictional giant monster, King Kong as the shape of our logo because it represents

that our product is very powerful.

Reflections:

Thank you all teachers and students who voted for us. After going through stages of discussion, script writing, filming and editing, we are very happy that our work can be recognized by everyone. In fact, we didn't expect to win any awards at first, we just wanted to create an interesting work.

I am glad that the school provided us with this opportunity to let us learn English in an interesting way and feel the joy of teamwork at the same time. Thank you again to everyone who enjoyed our presentation and supported us with your vote.

The Best Presentation Award: Telecloth

5B(11) Khan Muskaan

5B(05) Cheung Ying Tung, Apple

5B(22) Ng Moon Hei, Moon

5B(02) Chan Wai Yan, Joy

Our product's name is 'Telecloth', which is coined by two words—'teleport' and 'tablecloth'. Our invention is a small piece of tablecloth that has teleport function. Therefore, we can use the Telecloth to transport ourselves to any places anytime. Simply say the name of the place you want to go, and you will arrive there in the blink of an eye. The teleport function also works with food. You can tell the Telecloth what you want to eat, and the delicious food

will appear on the Telecloth immediately! The final feature is that our invention is very lightweight, together with the compact size of our product, you can put it in your bag and bring it everywhere you go. With such features, Telecloth allows you to have a very convenient life and there is no need to take transportation or do any walking.

As for our logo design, we used purple as our theme colour because it reflects a mysterious and unique image to our target customers. Apart from that, we chose circle shape for our logo because it represents that our product is like the Earth, because the teleport function can let you visit any places on Earth. Also, a circle has no ending, which highlights the endless versatility of the Telecloth.

Lastly, our slogan is 'Telecloth? You need it!'. With this powerful and simple slogan, it emphasises the feature of our product, that it can bring any food to you or teleport you to anywhere you want, it is what you need to live a more convenient life.

Reflections:

In this group project, we learnt so much more than any regular speaking lessons. We gained lots of experience in this presentation, and we have become a lot braver as we weren't frightened to present our product to the whole form. Moreover, we have

improved our English public speaking skills through this project. Thank you everyone who voted for us.

Study tips from S6 students

As another new school year unfolds, this marks the beginning of the last school year at Ho Ngai College for our fellow S6 students. The countdown to HKDSE has already begun. In preparation for the public examination, they have been learning how to face stresses from studying and have adopted different methods to improve learning efficiency. We have invited representatives from each class to share some learning tips to all students.

6A (6) Lam Tsz Yan, Sherry

I am now a Secondary 6 student, I have to face the DSE exam very soon. To prepare for it, I believe I have to build my self-confidence. Self-confidence is vital as it determines whether I can succeed or

fail in the public exam. To achieve my goals, I will set an appropriate expectation on my effort instead of only focusing on my past failures, it can be a driving force to boost me up for preparing the DSE.

To set an appropriate expectation, it is important to know my strengths and weaknesses, it helps set up a balanced timetable for me to work hard for all subjects. Also, I will give myself regular rewards after achieving my short term goals, it definitely encourages me to work hard bit by bit and succeed in the DSE eventually.

6A (14) Yeung Tsz Yan, Cherry

To prepare for HKDSE, some students only rely on the knowledge taught by teachers. However, I believe, we can do more by ourselves. First, before lessons, we can preview the teaching content and use

Solidmemory to learn more words. By doing so, we can learn more efficiently.

Then, I will do more past papers by myself, so I can familiarise myself with the exam formats as well as grasp a better picture on my strengths and weaknesses.

When I do the past papers, I always time myself so as to control the time and finish all questions on time.

Most importantly, I believe practice makes perfect. If I speak more English, I can be more fluent in English and communicate with friends and teachers in English too.

6B(9) Pang Wang Chun, Jack 6B(13) Wong Kin Long, Ken 6B(15) Yeung Yat Hung Jacky

Being the candidates of the 2022-23 DSE cohort, we are now encountering the most challenging moment in our life as DSE is approaching! However, we would like to remind all S6 students, don't forget to give yourselves a break when you are feeling tense. Here,

we want to share some tips to help you relax when you are hitting the books.

First, make sure you get enough sleep. Many of us go all out in DSE for a place in the sun in both the university and the future career, we

may have a perfect plan for our schoolwork, extra-curricular activities, and even the time for playing mobile. In fact, we always miss one of the most important time slot in our schedule, that's sleeping hour! If we always burn the midnight oil, our physical health and emotion will be ruined. As a result, our academic performance may also be affected.

Second, try to listen to music. With the special power of music, we could clam ourselves down when we are stressed. Apart from alleviating the academic pressure, music is the best way to vent the pent-up frustrations and submerge oneself in glamour melodies. There's no doubt that music can help us have a break away from the stiffing learning environment.

Lastly, take calming breaths. When we are experiencing anxiety or panic attacks, try to take short, shallow breaths to get more oxygen flowing around our body, and more crucially, our mind. This makes us feel more refreshed and energized.

So, stop waiting and start doing. Hope these tips for relaxation can help with your study.

6C(5) Ko Chi Hung, Anten 6C(10) Lin Qihuang, Hugo

Term test and examination are coming soon. Have you started your revision? And when you do your revision, how long can you stay

focused while studying? I guess for most of us, we find it very difficult to stay focused for a long period of time. Therefore, Anten and I would like to share with you some tips on how to concentrate on our studies.

First of all, creating a suitable study environment is one of the most important elements to make us focused. If we study at home, try not to find a place which is relaxing or comfortable, which means that you should not be studying on your bed or on a comfy sofa. Instead, I recommend you do your revision on a dining table or a shared family desk. But if you find it difficult to do so at home, why not try studying in the school library or a self-study room?

Also, we must block out all possible distractions. Such distractions include our smartphone, TV or any other electronic devices. We can install apps which allow us to have access to the crucial apps we need and won't get distracted by any unnecessary gaming or social media apps. And if possible, put all these electronic devices completely out of sight while studying.

Another step we can take is to set clear and precise goals. It doesn't just mean writing down the goals like 'I want to do well in exams.' We have to be specific. For example, we can write down 'I want to get Level 4 in all core and elective subjects so I can study engineering in the City University.' Once we've set the goals, write each of them down and keep the list visible and displayed near our workspace.

Setting a study timetable is a good way to help us establish a good routine as well as to track our progress towards our goals. We have to include our goals and deadlines in the timetable, like the upcoming exams, deadlines for submitting assignments or projects. The second thing to include is 'free' time – one of the key factors in helping us to stay focused on our studies is to strike for study-life balance. Schedule regular breaks, days off, and downtime in the evenings, these breaks allow us to relax and be energised by doing the things we love.

升中模擬(中英文)面試

升中是家長最感憂心的 事,不只學生要面對壓力, 家長們更為之煩惱;為籌備 升中事,各種安排:諸如補 課,操卷及學習時間分配等 事,幾近兼顧不暇。當中最

難以助孩子過關的事,莫如升中面試,尤其是要入讀心儀學 校,即場面試的好壞,會影響其入讀機會。所以,若對面試掉 以輕心,之前一番備戰心血就功虧一簣,付之流水!

有見及此,為協助來年小五學 牛以最佳狀態應付面試,本校於本 年7月舉辦升中模擬中英文面試活 動,務使在學的小五學生能早作準 備,以自信及認真態度,輕鬆面對 未來面試的挑戰。
